

LIBERTY® Open-Grill Broiler Feeder

Let's grow together™

Maximizes feed visibility and access while minimizing feed waste

Feeder Specifications	Birds Per Feeder	Feed Cone Color
Broilers (to 4.5 lbs./2 kg)	60-90	Silver
Broilers (to 7 lbs./3.2 kg)	55-75	Silver
Broilers (to 9 lbs./4.1 kg)	45-65	Silver

An Open Approach to Feeding Broilers

The feeder's open grill provides easy access to the feed for broilers of all ages and weights.

The LIBERTY® Feeder offers variable flooding throughout the flock. Using a winch, adjust the flood level in up to 200 feet (61 m) of feeder line at a time – 100 feet (30.5 m) in each direction.

From the scalloped grill's comfortable fit to the feed-saving fins and grill/pan edge, this feeder suits both broilers and their growers.

ALL-OUT™ Flooding from Any Height

The LIBERTY® Feeder delivers ALL-OUT™ Flooding, on the floor or in the air.

The silver feed cone can be manually locked into the full flood position, or use winching for a variable flood level.

The LIBERTY® Feeder's Actuator System features a positive locking mechanism which prevents over- or under-cranking.

No windows to restrict feed flow means feed is more visible and heaped high for chicks.

No windows to restrict the feed flow means that feed in the LIBERTY® Feeder is more visible and heaped high for young birds.

In the flood position, birds can easily see the flowing feed. The scalloped grill edge is just 2.5 inches (64 mm) at its lowest point.

What I like about Chore-Time's Liberty Feeder is the way I can adjust the flood level. I like that I can have a gradual change in flood level for my birds as they grow.

Virginia Broiler Grower

Count on Chore-Time for experience, reliability, performance and confidence.

Designed to Save Feed

1. The grill extends into the feeder's pan, forming a feed-retaining lip.
2. The rounded pan bottom shape moves the feed further out in the pan and encourages birds to shift to perimeter eating faster.
3. Chore-Time's LIBERTY® Feeder's feed fins serve as anti-rake devices when lowered into the feed and help to control the feed level.

Engineered for Comfort

Chore-Time's LIBERTY® Feeder's open design provides easy access to feed for birds of all sizes.

Patented scallops on the grill/pan edge fit the shape of the birds. Grill is 2.5 inches (65 mm) at its lowest point.

Openings in the top of the grill deliver light and air to birds while they eat.

Easy Cleaning and Maintenance

The LIBERTY® Pan hangs securely from two hinges for cleaning.

Hinge locks facilitate cleaning while holding the pan in place.

Feeder can be rotated on the line to empty out feed between flocks.

Non-corroding, all-plastic construction.

LIBERTY® Open-Grill Broiler Feeder

The LIBERTY® Broiler Feeder is offered with a **silver feed cone**. Mechanical and electronic control pans are available in both intermediate and end-control models.

Chore-Time's LIBERTY® Feeder features **six feed level settings** from 0.375 inches (9.5 mm) to 1.5 inches (38 mm) to control the amount of feed when the feed cone is in the lowered position.
