DURA-BENCH ULTRA Plastic Greenhouse Bench Tops

DURA-BENCH ULTRA just got even better. Southwest Agri-Plastics is proud to announce our new 36"x48" bench top. Every bit as strong as our 24"x48" panel, the new 3' panel gives you the flexibility to build greenhouse benches the sizes that work best for you.

DURA-BENCH ULTRA Plastic Greenhouse Bench Top is a smoother and longer lasting growing surface for your plants. Designed to replace traditional wood, wire, and expanded metal bench top, **DURA-BENCH** panels are made from durable, non-porous polypropylene plastic. The **DURA-BENCH Plastic Greenhouse Bench Top** eliminates problems like corrosion, rust, and sharp edges typically seen from expanded metal or wire tops. The panels will not crack, rot, or splinter like traditional wood products. In addition, the smooth panel allows trays, flats, and pots to slide across the surface with ease. **DURA-BENCH Plastic Greenhouse Bench Top** products are available in many different sizes and styles to fit your specific need.

Features & Benefits

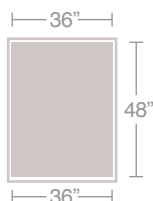

- Increased Airflow
- Less Expensive
- UV Protected
- No Splinters
- Rot Proof
- Attaches To Wood or Metal Frames
- Impact / Wear Resistant Plastic
- Easier Cleaning
- Long Lasting
- No Rough Edges
- Easy to Install
- Rust Proof

Ultra Strong Panels, Ultra-Flexible Options

With **DURA-BENCH ULTRA** available in both 24" and 36" wide panels, you easily can build benches to fit your needs. Combine sizes, or cut panels down to fit. Below are just a few easy layouts for different width benches.

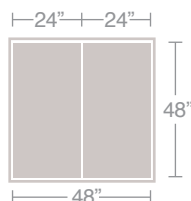

3' Wide Bench

(1) 36"x48" Panel

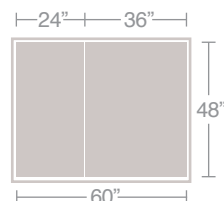

4' Wide Bench

(2) 24"x48" Panels, Side x Side

THERE'S A LOT TO A NAME...

A lot can happen in 50 years. When Vic Sahm developed his first plastic feed wheel in 1970, DuraPlas was born. He may never have dreamed that over 50 years later his company would be the global provider of durable plastic products that it is today.

Some of you may know us as Southwest Agri-Plastics, as an innovator in the poultry, swine, horticulture and livestock feed industries. Others may recognize the name Maxi-Lift, for our maximum duty elevator buckets, belting and hardware that move the world's agricultural and industrial products to market. Still others know us for our petroleum pipeline stands, cargo accessories or warehouse rack protectors. Whether it's agriculture, industrial, energy or global logistics, wherever extreme duty plastic products are found, you will find the name DuraPlas.

As we move forward into the next 50 years of innovation, the time has come to bring all of the brands you know and trust under one name, the original name - DuraPlas. Our promise to you is that nothing has changed. From our elevator buckets to our dog kennel flooring, our quality and commitment remain the same. Our family looks forward to serving you in the years ahead.
